Support Analyst – Supply Chain

Dear Hiring Manager at CitiTrends,

I am writing to express my interest in a software-focused position with CitiTrends, stationed in Columbia, SC. (deleted) Since I can remember, Citi Trends has been the primary clothing destination for me and my family. Everywhere we lived there was always a Cititrends nearby that provided clothes at an affordable price with a wide range of styles and sizes that accommodated us. From flashy stylish tops to plus size business slacks, we could always rely on stations to provide what we were looking for. Now it is my turn to provide what you are looking for. A range of technical skills and knowledge combined with an artistic view that maintains operation efficiency and brings value to a brand (deleted) with a growing presence and commitment to serving diverse communities. (deleted)

I am fit for this position because I appreciate a work environment that promotes mediums of artistic expression. I have exercised my ability to collaborate within a team, organize technical resources, and take initiative in structured environments. (deleted) I have skills in software (deleted) and tech that I am eager to apply in a professional environment that values innovation and efficiency.

If you're Interested in an employee who is passionate to bring value to your company and experienced in a range of computer software systems, please consider me. You can review my LinkedIn at your leisure. You may use my Email or number when you need to contact me for further discussion.

Looking forward to working with you

In all wellness

D'ontae Dansby
